Conference Theme

In celebration of the 25th Anniversary, the Journal of Comparative Policy Analysis: Research and Practice (JCPA) is inviting scholars, graduate students, and practitioners to the International Conference on Comparative Public Policy, hosted by the School of Public Policy and Management at Tsinghua University, Beijing, China, is set for April 19 to 21, 2024. The Conference theme is “Comparative Public Policies at the Age of Advanced Technologies” (先进技术时代的比较公共政策).

It aims to address the pivotal role of technology in public policy in today’s increasingly digital world. With the advent of Artificial Intelligence, Machine Learning, Big Data, Bio-Technology, and Communication Modes, these technologies are becoming deeply intertwined with every aspect of society, including public policy. Policymakers around the world face the complex challenges of harnessing the power of these technologies to improve policy analysis processes, policy making and implementation, while keeping up the regulatory and policy framework to guard against the potential hazards to society.

The conference calls for an interdisciplinary comparative dialogue about the interplay between technology and public policy, intending to foster discussions, widen debates, and offer innovative angles on how scientific breakthroughs and new technologies shape public policy.

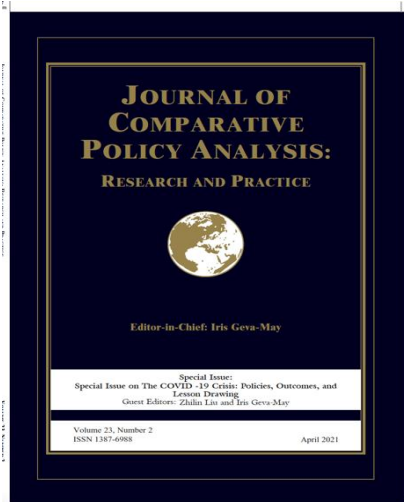

The conference focuses on tracks such as Science and Technology; Crisis and Resilience; Environment and Sustainability; Diversity, Equality, and Inclusion; Global Public Policy; Urban and Rural Policy; and Politics and the Policy Process; Governance and Public Policy; Context, Culture, and Public Policy; Frontiers in Theories and Practices of Comparative Public Policy Analysis, Special Issue Track: AI, Data Science, and Comparative Public Policy; Special Issue Track: Comparing Climate Policy Implementation toward Carbon Neutrality.

Introduction to JCPA

THE JOURNAL OF COMPARATIVE POLICY ANALYSIS

Affiliated with the
Scholarly Society for International Comparative Policy Analysis

Journal Mission

Journal of Comparative Policy Analysis: Research and Practice (JCPA) has pioneered comparative policy studies since 1998 and is the only explicitly comparative journal of policy analytic studies. It aims to stimulate the intellectual development of comparative policy studies and the growth of an international community of scholars who research the challenges and benefits of global inter- and intra-policy making.

《比较政策分析期刊》创刊于 1998 年，是目前唯一致力于比较政策分析的英文学术期刊，以促进比较政策研究的理论发展、推动全球视野下比较政策分析的国际学术共同体的成长为使命。

Journal Features

- ❖ The only English journal dedicated to comparative policy analysis
唯一致力于比较政策分析的英文学术期刊
- ❖ Not limited to comparison across countries, regions, or social units
并不只是国别或区域之间的比较
- ❖ Inter-disciplinary public policy research
跨学科的公共政策研究
- ❖ Wide-range policy domains, theoretical perspectives, and methodologies
广泛的政策议题、理论视角与方法论

Aims and Scope

The *JCPA* published scholarship aims to capture differences or similarities in policy issues as well as the role of comparative policy analysis both within and between social units. It contributes to:

- ✓ comparative theory development
- ✓ comparative theory testing
- ✓ comparative methodology development
- ✓ evaluation of comparative research methods
- ✓ comparative empirical policy research
- ✓ practice implications of comparative public policy
- ✓ lesson-drawing and extrapolation

Introduction to Tsinghua SPPM

清華大學公共管理學院

School of Public Policy & Management, Tsinghua University

The School of Public Policy and Management, Tsinghua University (**Tsinghua SPPM**), was founded in 2000 as the first graduate school of public policy in China. The School's mission is to become a world-class institution actively engaging in teaching, research, and consultation on global public affairs. **Tsinghua SPPM** is committed to training future generations of scholars and professionals in public affairs with a global perspective and strong social commitment. It also aims to constitute a global forum for discussing critical challenges, sharing innovative ideas and wisdom, and fostering dialogue and collaboration between China and the world, in hopes of achieving lasting peace, prosperity, equity, and sustainability for humankind.

Over the years, **Tsinghua SPPM** has emerged as a leading academic institution in China and has established extensive partnerships with international organizations and academic institutions worldwide. The school has built a diverse, interdisciplinary faculty, currently comprising over 60 faculty members working in public policy and governance, public management, NGO studies, and global governance. Our faculty members have significantly contributed to the intellectual development of public policy and management and the formulation and implementation of public policies in China.

The school currently offers three degree programs in Chinese, including Master of Management, Master of Public Administration (MPA), and Ph.D. programs, and six Master's programs in English, including Master of Public Administration in International Development (MID), International Master of Public Administration (IMPA), Master of Public Administration in International Development and Governance (MIDG), Master of Public Policy for Sustainable Development Goals (MPP-SDG), International Master of Public Administration in the Belt and Road Initiative (IMPA-BRI), and International Master of Public Administration for Future Leaders (IMPA-Future Leaders). The school also provides numerous executive training programs for over 80,000 officials from central ministries, agencies, and local governments. **Tsinghua SPPM** strives to establish a world-class think-tank cluster in China. The school has co-initiated research centers with multiple central government agencies devoted to policy research in areas such as service economy, development and planning, science and technology policy, sustainable development goals, environmental governance, public-private partnerships, rural studies, philanthropy, risk assessment and crisis management, and big data and e-governance.

Introduction to Keynote Speakers

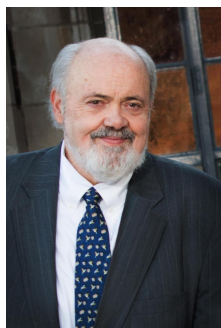

Xiaojuan JIANG

Xiaojuan Jiang is the president of the China Society of Industrial Economics, professor of the University of Chinese Academy of Social Sciences, and former Deputy Secretary-General of the State Council.

As the Ph.D. in Economics, her main research areas include digital economy, macroeconomics, industrial structure, international economy, and public policy. Her research achievements have won multiple awards, such as the "Sun Yefang Economic Science Award" three times and the 5th "China Economic Theory

Innovation Award," among others.

From 1989 to 2004, she worked at the Chinese Academy of Social Sciences, holding positions as an associate researcher, researcher, and professor. She served as the Director of the Industrial Development Research Office at the Institute of Industrial Economics and the Director of the Institute of Finance and Trade Economics. From 2004 to 2018, she worked in government agencies for 14 years, serving as the Deputy Director of the State Council Research Office and the Deputy Secretary-General of the State Council.

B. Guy PETERS

B. Guy Peters is Maurice Falk Professor of Government at the University of Pittsburgh, and founding President of the International Public Policy Association. He holds a PhD degree from Michigan State University and has honorary doctorates from four European universities. He is currently editor of the *International Review of Public Policy* and associate editor of the *Journal of Comparative Policy Analysis*. His most recent books include *Administrative Traditions: Understanding the Roots of Contemporary Administrative Behavior*

(Oxford, 2022). *Democratic Backsliding and Public Administration* (Cambridge, 2022.) and *Health Policy in the United States* (Bristol: Bristol University Press).

Guillaume FONTAINE

Since 2001, Professor Guillaume Fontaine has been working as a researcher and post-graduate professor at the Latin American Faculty for Social Sciences (FLACSO), in Quito, Ecuador. FLACSO is an international organization created by UNESCO in 1956, with representation in 13 countries. Professor Fontaine holds a Doctor's degree in Sociology from the University of Paris 3, and a Post-Doc habilitation to conduct research in Political Science from the Institute of Political Studies (Sciences-Po), Paris.

Professor Fontaine created the Comparative Policy Lab as a research and practice organization dedicated to promoting a design framework to deal with complex policy problems. The lab uses a realist approach based on multi-methods combining Qualitative Comparative Analysis (QCA), process tracing, and congruence analysis for small-n comparative policy. His areas of intervention include corruption control, chronic child malnutrition, public administration reforms, post-carbon energy transition, and environmental governance in Latin America and the Caribbean.

He has recently co-authored "Tackling Corruption in Latin America: An Institutional Approach" (with A. Hernández-Luis, T. Milan, and C. Rodrigues, Palgrave MacMillan, 2023), and "The Politics of Public Accountability" (with C. Medrano and I. Narváez, Palgrave MacMillan, 2020). He is also the co-editor (with B. Guy Peters) of "The Handbook of Methods for Research and Practice in Comparative Policy Analysis" (Edward Elgar, 2020), and "The Research Handbook of Policy Design" (Edward Elgar, 2022).

Tom CHRISTENSEN

Professor Christensen is Professor Emeritus at Department of Political Science, University of Oslo, and Distinguished Visiting Professor, Tsinghua University.

His main theoretical basis is organization theory and he has empirically focused on studies of central administrative structures and public sector reforms, including studies of sectors like crisis management, police, welfare administration, universities, health (COVID-19), but also studies of trust, accountability, reputation management, etc. Christensen has spent 30 years of teaching in China and has extensively published with Chinese colleague. His main university collaborations have been Renmin University, Tsinghua University and Huazhong University of Science and Technology (HUST). He is currently Distinguished Visiting Professor at Tsinghua and Visiting Professor at HUST.
